Computer Science

HAVARD UNIVERSITY
Web Development
2022 -2022

FREE CODE CAMP
Frontend Engineering
2022 - 2022

ABOUT ME

From the moment I produced "Hello World" in the console of my first application, I knew I was hooked into the world of software development. But software development has never been 'just a job' for me, it's offered an engaging challenge to continually learn and improve my skills in creating high-quality software. What started with a simple "Hello World" has become a full-fledged passion that only gets more exciting as the years go by.

I'm passionate about all things JavaScript. I work hard, I care about writing clean code and genuinely love to learn. I'm currently looking for the right opportunity to work in an environment that will help me progress into a full-stack role.

EXPERIENCE

CALCULATOR APP
This app is dark and light themed. It was built using HTML, CSS and JavaScript.

TRAVELERS WEBSITE
This is a modern website. It shows the prices of lodges travelers can choose to book in for different locations. It was built using HTML and CSS.

QUIZ APP
This is a quiz app developed using react as framework, I used typescript, HTML and CSS.

SINGLE-PAGE PORTFOLIO WEBSITE
This is a single page portfolio website, built using bootstrap, HTML, CSS and JavaScript. It is responsive too.
